**DETAILED ACTION**

***Response to Amendment***

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 20, 25 are rejected under 35 U.S.C. 102(e) as being anticipated by Tari et al. (US Pub 20030016636).

As to claims 20, 25, Tari et al. disclose an on-vehicle electronic apparatus (See paragraph 0010, vehicle information communication system) comprising means for receiving a packet containing information indicating a position of a transmission destination and information to be transmitted to the transmission destination from a first on-vehicle electronic apparatus using a wireless LAN; and means for transmitting the received packet to a second on-vehicle electronic apparatus (considered as terminal 51) using the wireless LAN ( See paragraph 0169, 0215).

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 2144

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 21-22, 26 are rejected under 35 U.S.C. 103(a) as being unpatentable over Tari et al. (US Pub 20030016636).

As to claims 21-22, 26, Tari et al. disclose the transmission destination of on-vehicle electronic apparatus as discussed wherein one of ordinary skill in the art at the time of the invention would modify the system of Tari et al. to have the second on-vehicle electronic apparatus that is closest to the transmission destination of on-vehicle electronic apparatuses around the self vehicle (providing short range radio for routing IP packets) (See paragraph 0169, 0215).

#### ***Allowable Subject Matter***

Claims 23-24, 27-28 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The prior art fails to disclose means for obtaining the second on-vehicle electronic apparatus closest to the transmission destination based on the acquired position information and velocity information of vehicles around a self vehicle using the wireless LAN.

Claims 2-4, 6-11, 13-14, 16-18 are allowable over the prior art of record.

#### ***Response to Arguments***

Art Unit: 2144

Applicant's arguments with respect to claims 2-4, 6-11, 13-14, 16-18, 20-28 have been considered but are moot in view of the new ground(s) of rejection.

**Conclusion**

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gertrude Arthur-Jeanglaude whose telephone number is (571) 272-6954. The examiner can normally be reached on Monday-Friday from 8:30 a.m. to 6:00 p.m..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, William Cuchlinski can be reached on (571) 272-3925. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
